PROFESSIONAL SUMMARY

Versatile and results-driven Software Engineer currently pursuing a Master's degree in Computer Science and Information Engineering. Demonstrates comprehensive expertise across full-stack web architectures and cross-platform mobile application development. Proficient in engineering robust backends with Laravel and PHP, crafting interactive frontends using Vue.js, and deploying containerized solutions via Docker. Adept at handling complex business logic, data parsing with Python, and delivering end-to-end applications. Highly adaptable and eager to contribute advanced technical solutions to innovative software teams remotely.

PROFESSIONAL EXPERIENCE

Software Engineer Intern

Dec 2025 – Jun 2026

GEEKERS Information Technology Co., Ltd

Tech Stack: Laravel, PHP, MySQL, Livewire, Vue.js, Bootstrap, Summernote

- Developed and launched official corporate websites for client companies from scratch using **Laravel**, ensuring robust performance and clean architecture.
- Engineered comprehensive custom admin panels integrating the **Summernote** WYSIWYG editor, enabling non-technical staff to seamlessly create, format, and publish articles for dynamic frontend updates.
- Designed and implemented an Employee Management System featuring Role-Based Access Control (RBAC) to securely manage staff permissions and organizational details.

Department Web Administrator

Sep 2023 – Jun 2026

Shu-Te University

Tech Stack: WordPress, HTML, CSS

- Maintained and administered the official departmental website using **WordPress** for over two years, ensuring consistent performance, security, and content accuracy.
- Edited page layouts, updated technical announcements, and managed digital content to facilitate effective communication between the department and students.

EDUCATION

Shu-Te University

Sep 2026 – Jun 2027
(Expected)

Master of Science in Computer Science and Information Engineering (4+1 Program)

Shu-Te University

Sep 2022 – Jun 2026

Bachelor of Science in Computer Science and Information Engineering

TECHNICAL PROJECTS

SunYad Corporate Website (sunyad.com.tw)

Client Project (GEEKERS)

Tech Stack: Laravel, Bootstrap, HTML/CSS/JS

- Designed and developed production frontend pages for a corporate real estate website.
- Built backend CMS features that allow administrators to manage banners, featured content, and page ordering without modifying code.
- **Hardest Design Decision:** Balanced a premium visual presentation with long-term maintainability. Built reusable page components and an easy-to-use CMS so non-technical staff could update content while keeping the website visually consistent.

Myson Corporate Website (myson.com.tw)

Client Project (GEEKERS)

Tech Stack: Laravel, Bootstrap, Summernote, HTML/CSS/JS

- Developed production frontend pages and backend CMS features. The CMS enables administrators to edit rich-text content and manage website information efficiently.
- **Hardest Design Decision:** Created a flexible editing experience without sacrificing layout consistency. Customized the Summernote editor and backend workflow to make content updates simple while ensuring pages remained visually consistent across the site.

Full-Stack Stock Analysis Platform & Cross-Platform Mobile App

Academic Project

Role: Core Full-Stack Developer & Lead Mobile App Engineer

- Designed, built, and maintained an end-to-end financial data platform incorporating a comprehensive web system and its companion mobile application.
- Collaborated closely on the full-stack system architecture, co-developing relational schemas in **MySQL** and crafting optimized APIs using **Laravel (PHP)**.
- Built an interactive, data-heavy frontend web interface using **Vue.js** integrated with **Chart.js** for real-time stock technical analysis and visualization.
- Assumed full ownership and execution of the mobile app ecosystem, leveraging **Flutter** to deliver a highly responsive, cross-platform user experience.

TECHNICAL PROFICIENCY

Mandarin (Native)		5 / 5
English (B2)		4 / 5
Backend (Laravel / PHP)		4 / 5
Frontend (Vue.js / Web)		4 / 5
HTML / CSS / JavaScript		4 / 5
Python Development		3 / 5
MySQL / Databases		3 / 5
Flutter (Mobile App)		3 / 5
